

Key Challenges

1. Manual Spot Vehicle Sourcing process caused delay and uncertainty in vehicle procurement.
2. Lack of carrier performance data led to inefficient carrier selection.
3. Lack of spot freight audit spend made the process unreliable and questionable.

What SuperProcure did

1. Automated Vehicle Sourcing improved vehicle finalization time.

2. Dashboard generated reports resulted in expert and logical carrier selection.

3. 100% Audit compliance added transparency to the process.

Results

>50%

Time savings in vehicle sourcing.

>95%

Vehicle placements assurance

8x

Increase in employee productivity

Paragon says

Half a day's job is now completed in half an hour

Jino Abraham
Manager - Logistics & supply chain

Easy requisition of trucks, time saving & easy-to-use interface are SuperProcure's outstanding benefits.
